WHO WE ARE

Dawood Industrial Fasteners Private Limited is a Pakistan-based manufacturer of high-strength industrial fasteners and precision machined components, serving engineers across construction, automotive, and heavy industry.

OUR STORY

With 5+ years of manufacturing experience, Dawood Industrial Fasteners has grown from a specialist bolt maker into a full-spectrum fastener supplier trusted by engineers across Pakistan. Our reputation is built on dimensional accuracy, consistent mechanical properties, and reliable lead times.

QUALITY COMMITMENT

Every fastener leaving our facility passes through a structured inspection regime. Incoming material, in-process dimensions, mechanical properties, and surface coatings are all verified and recorded at defined intervals.

MANUFACTURING

Our production facility is equipped with CNC machinery, thread rolling lines, and surface treatment equipment for zinc plating and hot-dip galvanizing. Every production run is dimensionally verified before dispatch.

CUSTOM CAPABILITY

Beyond our standard range, we produce custom fasteners to client drawings and specifications. From non-standard thread pitches to special grades and surface finishes, our team is ready to assist with your exact requirements.

02 — OUR DIRECTION

VISION, MISSION & QUALITY POLICY

VISION

To establish Dawood Industrial Fasteners as a recognised and trusted name in Pakistan's industrial fastener sector — known for the precision of our products, the reliability of our supply, and the professionalism of our service. We aim to grow our reach beyond domestic borders by building on the competitive strengths developed over 5 years of manufacturing.

QUALITY POLICY

It is the policy of Dawood Industrial Fasteners Pvt. Ltd. to ensure:

- Customer satisfaction through quality products, timely delivery, and competitive pricing.
- A safe and professional work environment for all employees.
- Continual improvement in the effectiveness of our quality management processes.
- Zero tolerance for non-conforming product leaving our facility.

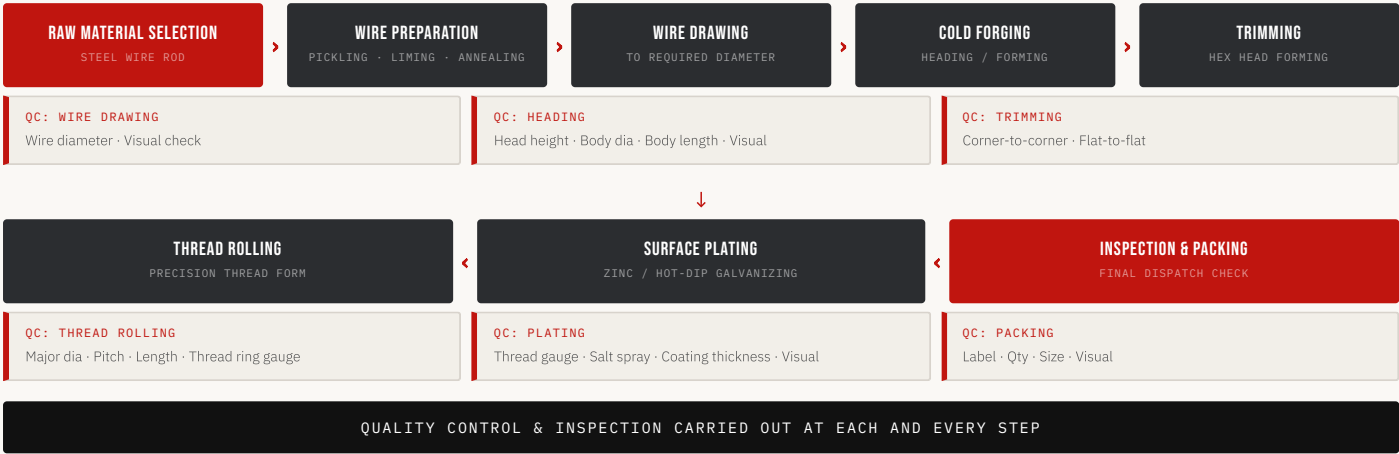

MISSION

- To provide fastening products that fully meet the dimensional and mechanical requirements of our clients.
- To continuously strengthen our reputation as a manufacturer known for product quality and reliable supply.
- To maintain a stable business that delivers consistent value to our clients and stakeholders.
- To develop a professional, motivated, and skilled workforce at every level.
- To invest in production capability and quality systems that keep pace with market demands.
- To maintain our leading position in the domestic market and explore export opportunities.
- To respond to every client enquiry with accuracy, speed, and full transparency.
- To be a responsible company — to our clients, our employees, and our community.

03 - PRODUCTION PROCESS

FASTENERS PROCESS FLOW

Every fastener produced at Dawood Industrial Fasteners passes through the following structured production sequence. Quality Control & Inspection is carried out at each and every stage.

STANDARD FASTENER RANGE

HEX NUTS – M5 TO M14 · DIN 934 / ISO 4032

SIZE	THREAD PITCH	WIDTH ACROSS FLATS	HEIGHT	STANDARD	STATUS
M5	0.8 mm	8 mm	4.7 mm	DIN 934	IN STOCK
M6	1.0 mm	10 mm	5.2 mm	DIN 934	IN STOCK
M7	1.0 mm	11 mm	5.5 mm	DIN 934	IN STOCK
M8	1.25 mm	13 mm	6.8 mm	DIN 934	IN STOCK
M10	1.5 mm	17 mm	8.4 mm	DIN 934	IN STOCK
M12	1.75 mm	19 mm	10.8 mm	DIN 934	IN STOCK
M14	2.0 mm	22 mm	12.8 mm	DIN 934	IN STOCK

Also available: fine thread, stainless 304/316, nylon insert (nylock), and flange nuts on request.

HEX BOLTS – M5 TO M14 · DIN 933 / DIN 931 · LENGTHS UP TO 220MM

SIZE	THREAD PITCH	WIDTH ACROSS FLATS	GRADE	STANDARD	STATUS
M5	0.8 mm	8 mm	4.8 / 8.8	DIN 933	IN STOCK
M6	1.0 mm	10 mm	4.8 / 8.8	DIN 933	IN STOCK
M7	1.0 mm	11 mm	4.8 / 8.8	DIN 933	IN STOCK
M8	1.25 mm	13 mm	4.8 / 8.8 / 10.9	DIN 933	IN STOCK
M10	1.5 mm	17 mm	4.8 / 8.8 / 10.9	DIN 931	IN STOCK
M12	1.75 mm	19 mm	4.8 / 8.8 / 10.9	DIN 931	IN STOCK
M14	2.0 mm	22 mm	4.8 / 8.8 / 10.9	DIN 931	IN STOCK

Available in lengths up to 220mm. Hot-dip galvanized and stainless on request. Specify required length when enquiring.

FLANGE BOLTS – M5 TO M14 · DIN 6921 · LENGTHS UP TO 220MM

SIZE	THREAD PITCH	FLANGE DIAMETER	GRADE	STANDARD	STATUS
M5	0.8 mm	11.8 mm	8.8	DIN 6921	IN STOCK
M6	1.0 mm	14.2 mm	8.8	DIN 6921	IN STOCK
M8	1.25 mm	17.9 mm	8.8 / 10.9	DIN 6921	IN STOCK
M10	1.5 mm	21.8 mm	8.8 / 10.9	DIN 6921	IN STOCK
M12	1.75 mm	26.0 mm	8.8 / 10.9	DIN 6921	IN STOCK
M14	2.0 mm	29.9 mm	8.8 / 10.9	DIN 6921	IN STOCK

Available in lengths up to 220mm. Serrated flange variants for vibration resistance available on request.

05 — SPECIALTY PRODUCTS

BEYOND STANDARD FASTENERS

HONDA CD70 AXLES

Precision-machined front, rear, and centre axles for the Honda CD70 motorcycle. Manufactured from high-grade steel to OEM spec. Chrome finish. Individually inspected. Bulk orders welcome.

OEM SPEC

CHROME FINISH

FRONT/REAR/CENTRE

U BOLTS

Round bend, square bend, and suspension U bolts for pipe clamping, vehicle leaf springs, and structural applications. Thread diameter from M6 up to M18. Supplied with two hex nuts and flat washers. Custom leg length, thread length, and bend radius available on order.

M6-M18

GRADE 8.8

ZINC / HDG

CUSTOM SIZES

WASHERS

Full range: plain flat (DIN 125A), large OD (DIN 9021), spring (DIN 127), Nord-Lock anti-loosening, and structural (F436). Carbon steel and stainless 304/316. Sizes M5 through M24 and beyond.

DIN 125A/9021/127

NORD-LOCK

F436

SS304/SS316

CUSTOM FASTENERS

Non-standard sizes, special thread forms, custom head configurations, and unique surface finishes produced in-house via CNC and thread rolling. Submit drawings or specs for a quotation.

07 — QUALITY ASSURANCE

PRECISION IS OUR STANDARD

Every fastener leaving our facility passes through a structured, documented inspection regime — from raw material receipt to final dispatch.

01 Incoming Material Inspection — Raw steel rod verified for chemistry and mechanical properties against mill certificates before entering production.

02 Dimensional Control — Thread pitch, width across flats, height, and shank diameter checked at defined intervals using calibrated gauges.

03 Tensile & Hardness Testing — Mechanical properties tested every batch to confirm grade compliance (4.8, 8.8, 10.9 as applicable).

04 Coating Verification — Zinc plating thickness and hot-dip galvanizing coat weight measured per batch and recorded.

05 Thread Gauging — Thread form and fit confirmed using Go/No-Go gauges on every production run.

06 Pre-Dispatch Final Inspection — Visual, dimensional, and packaging verification before every outbound shipment.

EMAIL

Yahyadawood700@gmail.com

LOCATION

Pakistan

Send us your specifications, quantity, and required grade. We respond with pricing, lead times, and technical data within 24 hours.

STANDARD LEAD TIMES

Stocked items: **5–7 working days**

Custom orders: **2–4 weeks**

Urgent: Contact us to discuss priority scheduling.

WHAT WE OFFER

When you work with Dawood Industrial Fasteners, you get more than a product — you get a manufacturing partner committed to getting every order right, every time.

COMMITMENT TO QUALITY

Every batch inspected against dimensional, mechanical, and surface finish criteria before dispatch. We do not ship product that does not meet specification.

TIMELY DELIVERY

Standard stock dispatched within 5–7 working days. We respect lead time commitments and flag delays proactively so you can plan with confidence.

CONSISTENCY & REPEATABILITY

No batch-to-batch variation. Our controlled production process and in-process inspection ensure every order matches the last.

COMPETITIVE PRICING

Direct manufacturer pricing without distributor markups. Fair, transparent quotes based on your specifications and volume — no hidden costs.

ENGINEERED PERFORMANCE

Products designed to satisfy tensile strength, hardness, and torque performance criteria. Grade-compliant to DIN and ISO international standards.

CUSTOM CAPABILITY

Non-standard thread forms, special head configurations — our in-house CNC and thread rolling lines can produce to your exact drawing or specification.

RESPONSIVE SERVICE

We respond to every enquiry within 24 hours with pricing, lead time, and technical data. Reachable by phone, WhatsApp, and email.

FLEXIBLE ORDER QUANTITIES

We accommodate both small trial runs and bulk orders. Whether you need a sample quantity or a full consignment, we scale to your needs.
